

LESSON PLAN 2023-24

Anthropology Lesson plan (Hons) July 2023-June 2024					
Honours	Month	No of lectures		Topic	
		Theory	Practical	Theory	Practical
Sem –III ANTAC OR05	July	12	10	Unit – I: Anthropological concept of tribe: 1. Tradition al concept of tribe: 2. Features of tribes:	Unit – I: Reading of Ethnography/Mon ograph:
	August	10	10	Unit – I: Anthropologic al concept of tribe: Indian tribes: Material Culture and Social Organiz ation of specific tribes in India:	Unit – I: Reading of Ethnography/Monogra ph:
	Septemb er	12	12	Unit – II: Contemporary issues and problems of Indian tribes:	Unit – I: Read and analyze any ONE Ethnography/Monograph
	October	10	10	Unit – II: Contemporary issues and problems of Indian tribes:	Unit – I: Prepare report
	Novemb er	8	8	Unit – III: Anthropologic al study of Peasants:	Unit – I: Prepare report
	Decembe r	8	10	Unit – IV: Tribal and Peasant Movement	Unit – I: Prepare report
	July	12	10	Unit – I: Defining environment and ecology;	Unit – I: 1. Anthropometry (at-least 10 subjects)
Sem –III ANTAC OR06					

				Autecology & Synecology; Scope of Ecology; Ecosystem - Component of ecosystem, Functional & structural point of view of ecosystem; Habitat, Eco-system, Energy flow; Basic concepts of abiotic and biotic ecology.	i. Maximum head length ii. Maximum head breadth iii. Minimum frontal breadth iv. Maximum bizygomatic breadth Bigonial breadth
	August	10	10	Unit – II: Ecological rules and their applicability to human populations – Allen’s rule, Bergman’s rule, Gloger’s rule.	Unit – I: 1. Anthropometry (at-least 10 subjects) i. Maximum head length ii. Maximum head breadth iii. Minimum frontal breadth iv. Maximum bizygomatic breadth Bigonial breadth
	September	12	10	Unit – III: Concepts of acclimation & acclimatization; adaptation and adaptability; Eco-sensitivity &	i. Nasal height ii. Nasal length iii. Nasal breadth iv. Morphological facial height v. Morpho

				Adaptation; Environment al stress & Homeostasis ; Adaptation to various ecological stressors: Temperature , Altitude and Nutrition; Impacts of urbanization and industrialization on human adaptation.	logical upper facial height
	October	10	12	Unit – IV: Relation between ecology & disease: Adaptation to Communica ble & Non- communicab lediseases.	i. Head circumf erence ii. Mid- upper arm circumf erence iii. Calf circumf erence iv. Stature v. Sitting height vi. Body weight
	Novemb er	8	8	Unit – V: Concept of Environment al Determinism & Environment al Possibilism (Concklin Fowler). Concept of Culture Area. Cultural ecology: Julian Steward's concept and application of the cultural	i. Head circumf erence ii. Mid- upper arm circumf erence iii. Calf circumf erence iv. Stature v. Sitting height vi. Body weight

				ecological method; Ecological Anthropology; Ethnoecology.	
	December	8	10	Unit – VI: Human Adaptation at the different levels of subsistence – hunting-gathering, horticulture, pastoralism, agriculture. Ecological themes of state formation: i. Neolithic revolution, ii. Hydraulic theory; Agriculture and peasantry; Industrial civilization and growth of urban societies.	2. Indices i. Body Mass Index, ii. Ponderal Index, iii. Relative Sitting Height.

Sem –III ANTAC OR07	July	12	8	Unit – I: Concepts of Biological variability; Categorization of People – Population, Mendelian Population, Race, Ethnic	C r a n i o m e t r y : l
------------------------------------	------	----	---	---------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------

				Group; Racism & Society	i n e a r
	August	10	10	Unit – II: Sources of Genetic variation - Mutation, Crossing Over and Recombinat ion, Gene flow (Migration and Hybridizati on), Genetic Drift, Selection (positive and negative) (only concept).	Craniometry: Indices
	Septemb er	12	12	Unit – III: Concept of Race: 1. Conventio al classificatio n of major human races of the world – Caucasoid, Mongoloid, Negroid. 2. Anthropom etric Characters (stature, cephalic index, nasal index); 3. Markers:	1. Chord: a. Frontal Chord, b. Parietal Chord, c. Occipital Chord.
	October	10	12	1. Classifi cation of	1. Arc: a. Frontal Arc, b. Parietal Arc,

				<p>Indian population - H. H. Risley, B. S. Guha, and S. S. Sarkar (broad groups only), Balakrishnan's Classification.</p> <p>2. UNESCO statement on Race.</p> <p>3. Intra- and inter-population variation - Typological, Populational & Clinical model of Classification</p>	c. Occipital Arc.
	November	8	8	<p>Unit – IV: Health and epidemiology: Biological and cultural factors influencing disease pattern and nutritional status of population; Diseases – Kuru, Sickle cell anaemia, Lactose</p>	1. Angular:

				intolerance.	
	December	8	10	Unit – V: Demographic Anthropology:	Unit – II: Construction and drawing of a population pyramid from secondary data and learning to interpret different types of population pyramids.

Anthropology Lesson plan (Hons) July 2023-June 2024					
Honours	Month	No of lectures		Topic	
		Theory	Practical	Theory	Practical
Sem –IV ANTAC OR08	January	10	10	Unit – I: Theory: Definition and importance of framing theory; Boundaries of theory; Importance of studying theory in Social Sciences at large and Social-Cultural Anthropology in particular.	Students will make presentations based on such studies and based on discussion during the presentation (submit the handout of the presentation during evaluation).
	February	10	10	Unit – II: Nineteenth Century Evolutionism: E. B. Tylor and L. H. Morgan.	Students will make presentations based on such studies and based on discussion during the presentation

				Neo-Evolutionism: L. White; Multilinear Evolution: Julian Steward; Diffusionism: British, American and German School.	(submit the handout of the presentation during evaluation).
	March	12	10	Unit – III: Cultural Relativism, Historical Particularism: Franz Boas.	Students will make presentations based on such studies and based on discussion during the presentation (submit the handout of the presentation during evaluation).
	April	10	10	Unit – IV: Culture and Personality: Ruth Benedict, Margaret Mead; Cultural materialism : Marvin Harris.	Collect data on social and economic aspect (primary data or secondary data), analyze them and write a report of a minimum of 2000 words). The student will be evaluated on the basis of the report submitted and viva-voce.
	May	8	8	Unit – V: Structural Approaches : Durkheim's Social Fact; Functionalism – B. Malinowski	Collect data on social and economic aspect (primary data or secondary data), analyze them and write a report of a minimum of 2000 words). The

				; Structural-functionalism - A. R. Radcliffe-Brown; Structuralism – Claude Levi-Strauss	student will be evaluated on the basis of the report submitted and viva-voce.
	June	10	12	Unit – VI: Symbolic and Interpretative approach: Clifford Geertz; Thick description.	Collect data on social and economic aspect (primary data or secondary data), analyze them and write a report of a minimum of 2000 words). The student will be evaluated on the basis of the report submitted and viva-voce.
Sem –IV ANTAC OR09	January	10	10	Unit – I: Concepts of human growth, development and maturation; Cellular processes: hyperplasia, hypertrophy and accretion.	Unit – I: Calculation of z-scores of height and weight from a secondary data set of at-least 20 subjects
	February	10	10	Unit – II: Stages of human growth: Prenatal (egg, embryo, foetus) and Post natal (neonatal, infancy, childhood, adolescence, adulthood, senescence) (general characteristics);	Unit – II: Assessment of children's nutritional status from the secondary data set of at-least 20 subjects
	March	10	10	Unit – III: Patterns of	Unit – II: Assessment of

				Human growth:	children's nutritional status from the secondary data set of at-least 20 subjects
	April	12	10	Unit – IV: Biological and cultural factors (genetic, socio-cultural & ecological factors) influencing patterns of growth & variation. Secular trends (concept with reference to stature).	Unit – III: Determination of nutritional status by BMI and MUAC from the secondary data set of at- least 20 subjects .
	May	8	8	Unit – V: Health and Nutrition:	Unit – III: Determination of nutritional status by BMI and MUAC from the secondary data set of at- least 20 subjects .
	June	10	12	Unit – VI: Concepts of body composition: fat patterning; brief introduction of models and techniques. Concepts of body constitution : Somatotyping & Human Physique with	Unit – IV: Skinfold Measurement: biceps, triceps, subscapular, suprailiac, medial calf; Estimation of fat patterning by skinfold thicknesses (Duerenberg, 1990) (at-least 10 subjects).

				reference to Sheldon, Parnell, Heath- Carter (overview)	
--	--	--	--	------------------------------------------------------------------------	--

Sem –IV ANTAC OR 10	January	10	10	Unit – I: Approach to Anthropologica l Research: Concept, overview and nature.	Unit – I: Project proposal writing - statement of the problem, hypothesis and objectives, study design, proposed analyses and expected outcomes and utility.
	February	10	10	Unit – II: Research Design:	Unit – I: Project proposal writing - statement of the problem, hypothesis and objectives, study design, proposed analyses and expected outcomes and utility.
	March	12	10	Unit – III: Tools and techniques of data collection:	Unit – I: Project proposal writing - statement of the problem, hypothesis and objectives, study design, proposed analyses and expected outcomes and utility.
	April	10	10	Unit – IV: Ethics of Research: 1. Identify, define, and analyze ethical issues in the	Unit – II: Calculation of statistical measures from secondary data set as mentioned in Unit V, ANTACOR10T by software (any

				<p>context of research on human participant</p> <p>2. Importance of consent, privacy and confidentiality in research</p>	<p>statistical software available with the Department).</p>
	May	8	8	Unit – V: Data Analysis:	<p>Unit – III: Learning to use a modern library and internet information, net-searching, use of INFLIBNET / Sodhganga, etc. Hands on demonstration in a library may be conducted (Laboratory Notebook should substantiate the work done by providing screenshots of the learning process during the search processes).</p>
	June	10	12	<p>Unit – VI: Writing Up:</p> <p>1. Chapterization, preparing a text for submission and publication, concepts of preface, notes (end and footnotes), glossary, prologue and</p>	<p>Unit – III: Learning to use a modern library and internet information, net-searching, use of INFLIBNET / Sodhganga, etc. Hands on demonstration in a library may be conducted (Laboratory</p>

				epilogue, appendix, bibliography (annotated) and references cited, review and index	Notebook should substantiate the work done by providing screenshots of the learning process during the search processes).
